ONLINE STUDENT'S QUICK REFERENCE

The following is a quick overview of registration procedures for online courses. Online courses at Touro College are Internet-based, powered by Blackboard technology. In order to take an online course, you must have a Blackboard ID and password, Internet access and an email account.

PLEASE FOLLOW THESE STEPS:

1. Register in person at Touro Registrar's Office - ask for Touro ID number.
2. Login to Blackboard and update your e-mail address.

USING BLACKBOARD

1. Open <http://bb.touro.edu> in a web browser and click "Login".

Only the Registrar is authorized to give you your Touro ID # after verifying your identity. Any Registrar office can give you your Touro ID number, not only the one you registered at.

Flatbush: 718-252-7800 ext. 223;
GSEP: 212-463-0400 ext. 371;
c) your password is your First and Last initials in lower case followed by the last 4 digits of your SS# (example: ab1234). If you don't have SS# put 4 zeroes after your initials (example: ab0000).

2. Enter your Blackboard username and password, and click on the "Login" button.
3. You will see a "Welcome" page with a list of your online courses.

CUSTOMIZING YOUR ACCOUNT

Once you login to your Blackboard account, you will see the main page in your browser window. You can always return to this page by clicking the "Touro College" tab at the top of your screen. This screen lists all of the courses you are taking, announcements posted by Touro College or your instructors, and other information. To go directly to your courses, simply click on the name of the course you wish to enter, on the right side of your screen in the "My Courses" box. From there, navigate through the course by clicking the buttons or text labels on the left side of the screen. You can edit your user profile by clicking the Personal Information link in the Tools section of the main page (Touro College tab), on the left side of the screen. From here you can:

1. Edit Personal Information - change your name, email address, and other information that appears in your user profile.

2. Change Password - manage your account password. It is recommended that you change your password periodically to ensure security.

We suggest using numbers or other characters so that your password is not easy to guess (for example: "apple3-25" without quotes).

3. Set Privacy Options - specify what personal profile information appears in the User Directory. (By default, settings exclude your user profile from the User Directory.)

Please notify your instructor if you change your email address.

Make sure that you are using the correct capitalization - passwords are case-sensitive (great is different than Great).
